TOOL WORKSHEET 4

CRÉER UN PROJET INCLUSIF

1 POSSIBILITIES

-Don't forget that the bigger purpose of your project is to serve the cultural, economic and sustainable development of New Brunswick and that it could benefit all linguistic communities in New Brunswick.

- Be flexible and prepared to adapt to new situations and make sure every team member is also well prepared.

- Suggest and follow rules of conduct specific to the group that is leading the project. Make sure everyone is on board to make it an inclusive project (Francophones, Anglophones, members of other linguistic communities, people with different literacy levels, etc.)

- Remind everyone of the essential concepts of inclusion:
Respect of everyone's differences
Peer support
Everyone's sense of belonging to the same community
Tolerance
Open-mindedness
Honesty
Active participation...
